

We have received a recent increase in prices from our suppliers, we need to inform you about an upcoming price change for our services.

With the upcoming PSTN/ISDN switch off and these products becoming 'end of life', our suppliers have implemented the below increases

- 25% on ADSL and FTTC products
- 3.9% on IPDC SIP Trunking
- 25% on Analogue Line rental and Multiline Line rental

We have also been notified of general increase of the following services:

- £0.35 Per iPECS User Licence

We are proactively contacting all our clients who will be impacted by this increase and looking at an alternative solution for your business.

All price increases are applied on a like for like basis, meaning that if our price increases by 5p, your price will also increase by this value.
